

Our timber training experts provide a range of courses from structural timber design through to designing with Eurocode 5, all of which provide delegates with practical guidance to assist them in future projects.

We can also provide bespoke tailored timber training courses from our offices in High Wycombe or at your own premises. These specialist courses are run by our in-house experts in timber technology, timber frame, structural engineering and Eurocodes.

This factsheet contains a brief overview of our courses for 2019. For full course details and dates, please visit:

TIMBER FRAME CONSTRUCTION

A one day course written to provide practical information on all aspects of timber frame construction. It explores reasons why timber frame has become such a popular method of building and aims to provide a better overall understanding of timber frame during design, the construction phase and in use.

Cost

Course only:

£290 + VAT (non-TRADA members) / £260 + VAT (TRADA members)

Course + Timber Frame Construction 5th edition publication:

£335 + VAT (non-TRADA members) / £305 + VAT (TRADA Members)

TIMBER FRAME FOR ENGINEERS

A one day course looking at the fundamentals of timber frame construction from an engineering perspective, which should help engineers and designers involved in the industry to gain an in-depth understanding of how these systems work.

Cost

£260 + VAT (non-TRADA members) / £235 + VAT (TRADA members)

VISUAL STRENGTH GRADING SOFTWOODS

A practical five-day course to grade softwood to the visual strength grades set out in BS 4978: 2007+A1:2011 'Specification for visual grading of softwood'.

Cost

£1190 + VAT (non-TRADA members) / £1070 + VAT (TRADA members)

VISUAL STRENGTH GRADING SOFTWOODS REFRESHER

A two day refresher course aimed at any graders whose registration to the Q-Mark VSG Scheme has lapsed for two years or more. This provides an overview of the subject and takes place in the last two days of the visual strength grading softwoods course.

Cost

£420 + VAT (non-TRADA members) / £375 + VAT (TRADA members)

VISUAL STRENGTH GRADING HARDWOODS

A practical three day course to grade hardwood to the visual strength grades set out in BS 5756: 2007+A1:2011 'Specification for visual grading of hardwood'.

Cost

£715 + VAT (non-TRADA members) / £645 + VAT (TRADA members)

EUROCODE 5: ESSENTIALS

A one day workshop giving an introduction to the concepts of Eurocodes, comparing and contrasting the BS 5268 design approach and the Eurocodes (EC5) limit state design philosophy. Examples are used throughout the day to give essential guidance to designing to EC5.

Cost

Course only:
£260 + VAT (non-TRADA members) / £235 + VAT (TRADA members)

Course + Eurocode span tables 4th edition publication:
£280 + VAT (non-TRADA members) / £255 + VAT (TRADA Members)

EUROCODE 5: CONNECTIONS

A one day course - building upon the essentials workshop on design to Eurocode 5 - aimed at engineers who have had some experience with timber structures.

Cost

Course only:
£260 + VAT (non-TRADA members) / £235 + VAT (TRADA members)

Course + Eurocode span tables 4th edition publication:
£280 + VAT (non-TRADA members) / £255 + VAT (TRADA Members)

GRADING SCAFFOLDING BOARDS

A practical three day course to grade scaffold boards set out in BS 2482:2009 specification for timber scaffold boards.

Cost

£590 + VAT (non-TRADA members) / £535 + VAT (TRADA members)

INSPECTION OF USED SCAFFOLD BOARDS

A one day course designed to address the needs of scaffolding companies and scaffolding contractors who will be expected to inspect and assess the condition of previously used scaffold boards.

Cost

£590 + VAT (non-TRADA members) / £535 + VAT (TRADA members)
